STRIVE Consulting

SUPPORTING teachers in improving teaching and learning by: building TRUSTING relationships | being RESPONSIVE to teacher needs, using solutions oriented INNOVATIVE thinking | VALIDATING achievement and progress for teachers and students | ENGAGING with teachers in their hard work

Using a Body of Evidence

When using Flowcharts to sort students into instructional groups, it is important to collect and use a body of evidence to inform the grouping process. Consider the following questions when grouping students using Flowcharts.

- Is this the right group for this student?
- Is this the stage of reading development the student needs the most support with?
- Does this student fit with the other students in the group?
- What other data will help?
- What other sub-tests should be considered?
- What data do we have from classroom assessments?
- What data do we have from formative assessments?
- What data do we have from intervention assessments?
- How can item analysis from sub-tests and other assessments help pinpoint instructional needs even further?

Kindergarten Flow Chart Fall to Winter- AimswebPLUS Early Literacy

Step 1	Write each student's name on a sticky note indicating the tier based on the composite score (pink-well below average, yellow-below average, green-average, blue-above average and well above average). Write in all subtest scores, including Lexile, that are provided by the report.			
If...	8 and below Pink sticky note	9-21 Yellow sticky note	22-58 Green sticky note	59 and above Blue sticky note
Step 2	Sort Sticky Notes by LNF <i>Any student that has a 19 or above on LNF is sorted into the first pile, which stays on the right side of the bold line. The students that have a 18 or below on LNF are sorted into the second pile, which stays on the left side of the bold line. Don't cross the bold line after step 2. Then, the students are sorted again in step 3. Students in the pile on the right side with a 17 or above on LWSF are placed in group D and students with a LWSF score of 16 or below are placed in group C. Students in the pile on the left side with a 4 or above on IS are placed in group B. Students with a 3 or below on IS are placed in group A.</i>			
	18 or Below on Letter Naming Fluency 		19 or Above on Letter Naming Fluency 	
Step 3	3 or below on Initial Sound  Group A	4 or above on Initial Sound  Group B	16 or below on Letter Word Sound Fluency  Group C	17 or above on Letter Word Sound Fluency  Group D
Note: The composite score simply indicates a level of risk based on the students' LNF and LWSF scores. In order to diagnose students' needs and provide targeted instruction STRIVE recommends administering the Initial Sound measure to diagnose the students' level of phonemic awareness and the Nonsense Word Fluency measure to diagnose the students' ability to blend sounds in words.

We STRIVE to support teachers, leaders, and coaches through evidence-based practices and positive supporting relationships. We customize our support based on school needs to build capacity for improved learner outcomes.

We STRIVE to provide TLC (tender, loving, care) to teachers, leaders, and coaches through our nonprofit by giving back at least 10% of all STRIVE proceeds through consulting, scholarships, resources, and give-a-ways.

STRIVE services include professional development (virtual and in person), onsite consulting, customized development work, and proposal and grant writing. STRIVE's evidence-based models lay the foundation for supporting teachers, leaders, and coaches in their journey for improving learner outcomes. We take pride in customizing each module to meet the needs of each client.

STRIVE's Models:

- STRIVE's PreK Literacy
- STRIVE's Elementary Literacy
- STRIVE's Adolescent Literacy
- STRIVE's Data System: a how to on planning, teaching, and assessing reading groups
- STRIVE's Teams: a how-to on building effective teams with effective instructional leadership
- STRIVE's Coaching: a how-to on becoming an effective instructional coach
