i-Ready Kindergarten Flow Chart- Fall

The i-ready flowchart is used for the year based on the scale score ranges (at grade level, one grade level below, two or more grade levels below, and above grade level). Use this flowchart to layer the sticky notes 3 times a year to show student progress.

Step 1	<p>Write each student's name on a sticky note indicating the tier based on the composite score (pink-well below average, yellow-below average, green-average, blue-above average and well above average). Write in all subtest scores, including Lexile, that are provided by the report.</p>			
If...	<p>99 and below Pink sticky note</p>	<p>100-361 Yellow sticky note</p>	<p>362-395 Green sticky note</p>	<p>396 and above Blue sticky note</p>
Step 2	<p style="text-align: center;">Sort Sticky Notes by Profile</p> <p><i>Use the Instructional Grouping Profile Report, and place students from Profile 1 into Group A, Profile 2 into Group B, Profile 3/4 into Group C, and Profile 5 into Group D. IN ADDITION, look at the group focus for each group on the focus folder or focus sheets and use additional data to help ensure correct placement. Example: If a student is scoring way below grade level on i-Ready but on grade level on other phonological awareness or phonics screeners, they would most likely be placed in group B, but not group C. (80% is the data and 20% is what else you know about your students, including using additional data points.)</i></p>			
Step 3	<p style="text-align: center;">Determine placement of each student's sticky note</p>			
	<p style="text-align: center;">Gaps in PA and/or Phonics</p> <p style="text-align: center;"></p> <p style="text-align: center;">Profile 1 Group A</p>	<p style="text-align: center;">Gaps in PA and/or Phonics</p> <p style="text-align: center;"></p> <p style="text-align: center;">Profile 2 Group B</p>	<p style="text-align: center;">Gaps in Vocabulary and/or Comprehension</p> <p style="text-align: center;"></p> <p style="text-align: center;">Profile 3 or 4 Group C</p>	<p style="text-align: center;">At or above grade level</p> <p style="text-align: center;"></p> <p style="text-align: center;">Profile 5 Group D</p>

i-Ready 5th Grade Flow Chart- Fall

The i-ready flowchart is used for the year based on the scale score ranges (at grade level, one grade level below, two or more grade levels below, and above grade level). Use this flowchart to layer the sticky notes 3 times a year to show student progress.

Step 1	Write each student's name on a sticky note indicating the tier based on the composite score (pink-well below average, yellow-below average, green-average, blue-above average and well above average). Write in all subtest scores, including Lexile, that are provided by the report.							
If...	541 and below Pink sticky note		542-580 Yellow sticky note		581-608 Green sticky note		609 and above Blue sticky note	
Step 2	<div>Sort Sticky Notes by Profile</div> <p>Use the Instructional Grouping Profile Report, and place students from Profile 1 into Group A1, Profile 2 into Group A2, Profile 3 into Group B, Profile 4 into Group C, and Profile 5 into Group D. Groups A and B go on the left side of the folder. Groups C and D go on the right side of the folder. IN ADDITION, look at the group focus for each group on the focus folder and use additional data to help ensure correct placement, including iReady subtests, Lexile, and/or an oral reading fluency (ORF) or MAZE measure. Example: If a student is scoring way below grade level on iReady but on grade level with other measures (i.e., ORF, district and state assessments), they would most likely be placed in group B and not A1 or A2 or C. (80% is the data and 20% is what else you know about your students, including using additional data points.)</p>
